### Ideal For IT Professionals

This Reference Library contains carefully selected IT reference titles designed for certified IT professionals and to support those seeking IT certification. ITProSelect is ideal for anyone seeking quick and accurate answers to tough IT questions. With the "Select" edition of the library, IT professionals are assured of immediate access to a constantly growing resource on the latest IT topics.

### Timely, Comprehensive Content

Over 400 titles are included in the library - and these titles are added to on a quarterly basis. Plus, the new book alert feature included in the Select edition ensures that you know when new information has been added. This allows you access to content that is timely, comprehensive, up-to-date and informative.
